1. Refusal of orders for Commodity Derivatives

The client is aware and agrees that the Commodity Broker may refuse or restrict a client in placing the order in certain commodities depending on various conditions like volume / value / part of illiquid commodities although a client may have credit balance or sufficient margin in the trading account.

However, Commodity broker under exceptional circumstances may execute cliental order. The Commodity Broker has the discretion to reject execution of such orders based on its risk perception.

2. Policy for Penny Stock / Securities

A Security that trades at a relatively low price (generally such securities are trading below face value of the security) and has small market capitalization is a penny stock. These types of stocks are generally considered to be highly speculative & high risk because of their lack of liquidity, large bid-ask spreads, small capitalization and limited following and disclosure.

The Company recommends that its clients desist from trading in any penny stocks in view of the associated risk element while dealing in such stocks. Further, the client is also required to adhere to Exchange/Members' guidelines and due diligence while trading in such stocks. Also SEBI/Exchange from time to time issues directives necessitating additional due diligence for dealing in such stock(s).

Depending on the market condition, applicable regulatory guidelines and applicable risk policy of the Company, the Company at its sole discretion, may impose certain restrictions and/ or conditions (on case to case basis) including but not limited to refusal, wholly or partly, for trading in penny stocks.

These restrictions/ conditions include but are not limited to the following:

- Restrictions on trading, either wholly or partly, in certain security(ies) or category of security(ies) contracts viz.
- illiquid stocks / stocks having low liquidity,
- illiquid options / far month options / long dated options,
- securities listed in Z, T, TS, S, B group and/or securities listed in BE, IL, BT or EQ series on NSE,
- any other securities/ contracts which as per the perception of the Company are volatile or subject to market manipulation or has concentration risk at client level or at the

Company level,

- acceptance or partial acceptance of an order for buy and/or sell. Such acceptance may require execution in a controlled environment (for e.g. from centralized desk instead of from designated dealing area or electronic platform);
- cancellation of orders of the above securities contracts received from clients before execution or after partial execution without assigning any reasons thereof;
- Requirement to obtain appropriate declarations from the client before/after accepting such orders.

The Company shall:

- not be responsible for non-execution / delay in execution of such orders and consequential opportunity loss or financial loss to the client
- have the discretion to place such restrictions, notwithstanding the fact that the client has adequate credit balance or margin available in his account and/or the client had previously purchased or sold such securities/contracts through the Company itself;
- have the right to revise the list of such securities/contracts on a periodic basis.

Client can obtain the information about the updated list of securities from the Relationship Manager / Dealing office

100% margin will be taken from the client and these shares will not be taken to as Margin deposit.

3. Setting up client's exposure limits
